FIRE RESTRICTION IN EFFECT

The warm temperatures, lack of precipitation, and recent strong winds have once again elevated the fire danger across our region. As a result, a Fire Restriction is now in effect for the Municipal District of Willow Creek.

This means all Fire Permits have been suspended, and no new permits will be issued until a significant amount of moisture is received.

Burn Barrels, incinerators and backyard fire pits that meet the bylaw requirements are still allowed, and the MD is asking that you use extreme caution when burning. Please remember to revisit any previous burn sites to check for hotspots. If you see smoke or feel heat, the fire is still burning. Douse any remaining hotspots with water and stir up the ashes. Remember to check mdwillowcreek.com and albertafirebans.ca for the most up-to-date information.

If you have any questions regarding the foregoing, please do not hesitate to contact the Emergency Services Department at 403-625-3351.
